FOG DELAYING BERGERS ON NORTH FLIGHT

Forced Down at Rockland, Me., at Start of Greenland Journey

ROCKLAND, Me., July 10.—Fog enshrouding the Atlantic coast has interrupted Col. and Mrs. Charles A. Lindbergh's flying expedition to Greenland and Iceland.

Taking off from New York for Halifax yesterday, they landed near Rockland, Me., three and a quarter hours later, a wireless message to them said.

It was apparently fog, which lay thick over Nova Scotia, that forced them down short of their goal. Aviation officials at Halifax, waiting last night, felt some anxiety until word of their safe landing arrived. The famous flying couple was expected to go on to Nova Scotia today, weather permitting.

NEW CONSTITUTION FOR PRUSSIA MAKES SENATE SECOND TO PREMIER

BERLIN, July 10.—A new constitution for the Prussian state council in which storm troops members are officially recognized as among the chief advisers of the state premier had been promulgated today by Captain Wilhelm Goerring, right hand man of Chancellor Hitler in the national cabinet.

Captain Goerring, who among his other duties also is premier of Prussia, hailed the new state council as the most important organ of government next to the state parliament.

Under the new constitution, this council which formerly had functioned almost tantamount to a senate or upper house will hereafter merely listen to the propositions of Captain Goerring, make observations concerning them and then adjourn.

Members of the council are composed of the Prussian cabinet and 50 persons appointed by the premier. Among them officers and soldiers, the brown-shirted Nazi storm troops, the black-shirted SA, and representatives of the churches, industry, business, science, and labor also will be included.

In the past the state council met publicly, now meetings will be secret.

Charges Bennett Gov't. is
Against Agricultural
Industry

Agreement reached at the last Imperial conference have proved a failure in that Premier R. Bennett has been unwilling to put the tariff to a point where the British importer could and his goods in this country, declared Hon. Charles Stewart, former minister of parliament for West Edmonton, in his arrival in the city on Monday.

He is paying his first visit to this city in almost a year.

The effect of Bennett policies, he said, is to retard agricultural progress.

In every move the Bennett government makes, it is penalizing the agriculturist, he said, and its desire to add manufacturing interests by preventing importation of manufactured goods, he said, has put the market for agricultural products.

INCENSED BRITISH

Hon. Mr. Stewart further charged that in imposing duty of from 10 to 30 per cent on textiles against which it has increased the duties on public against the purchase of Canadian wheat and livestock.

"Naturally," he said, "every move of the Bennett government is to be against the agriculturist, with the result that of all grain exporting countries Canada seems to have the largest carry over of any, constituting a barrier to the export of grain."

He charged that harm had been done by not considering the effect of 18 months ago, when it would have been real value in the market of agricultural products.

"I hope the increase in speculative values will hold. This I attribute to Roosevelt's move rather than to the present move, but the moment there is not much money in the market, the increase in European prices, which is the Canadian grain market."

NOY MEASURES

Unless Premier Bennett is prepared to change his policy regarding the duties on textiles, he said, he has no hope for permanent improvement in agricultural products.

"The Dominion government of the day," he said, "has been too busy with domestic or international politics, and has not been able to do anything for the agriculturist, all of which have proved failures."

"Naturally," he said, "all awaiting the moment when the agriculturist is able to get the government to do something for him, and apply a remedy to the economic situation."

Hon. Mr. Stewart is a guest at the Macdonald hotel.

This week he plans to visit his old farm near Killam, after which he plans to visit the Calgary stampede.

RUSH TO PAY

AT CITY HALL

HON. CHAS. STEWART

New System of Monthly
Payment Meeting With
Favor Here

The rush of telephone subscribers to pay monthly accounts Monday was paid amicably in the history of the city telephone department, according to information received from J. A. McCool, assistant superintendent, who is acting in the absence of Supl. Robt. Christie.

Effective July 1, the new system of monthly billing of telephone subscribers has been put into effect. The rate of subscribers to pay monthly accounts on the 1st of the month, instead of on the 15th, as was the case previously, has been met with a rush of subscribers to pay their bills.

The department has decided to extend the period of grace for payment of phone bills until 5 p.m. Monday, July 11, owing to the fact that July 1 was a holiday. A discount of five per cent is allowed on bills paid on or before the 10th of the month. Mr. McCool said that there had been several applications for the installation of telephones during the past few days, and that the department was receiving several orders for new telephones.

Young, must have his fling, even in the Inquiring Reporter column.

LOCAL TEAM DEFEATED ON SATURDAY

In Game at Home

By 6-0 Score

Displaying splendid control of the ball, packing a scoring punch that could not be denied when opportunely offered and taking advantage of every opening, Calgary C.F.R. one of the first football clubs to play in the city for a night in the Dominion of Canada challenge cup game, defeated the host team, Edmonton, by a score of 6-0.

PACIFIC TAKES TROPHY FROM ONTARIO

Ken Black Gave Great Exhibition to Inspire Mates

By C. B. EDWARDS

Canadian Press Staff Writer
ST. LOUIS, Mo., July 10.—The inter-provincial golf championship and the Willard challenge cup returned Sunday night to Pacific slope for the first time. Inspired by the brilliance of 20-year-old Ken Black of Vancouver, British Columbia's team of youthful linksters returned record score of 187 over the last hole Sunday to complete the 36 holes of medal play with a three stroke margin over Ontario champions of two years standing. Quebec, Manitoba, Saskatchewan and Alberta, who finished behind the leaders in that order, were left far behind in a blazing second round that produced the most spectacular finish in the history of the competition. After leading the Pacific Columbians by one stroke at the 27 hole mark, the quartet of veteran Ontarians were powerless to cope with the barrage of pars and birdies manufactured by the coast players.

ONTARIO TO SECOND

Ontario finished with a creditable 600 total, one more than the previous record they set in winning the event at Montreal in 1931, and 14 up on the score they won at Toronto last season. Quebec closed the day in third place with 621 and Manitoba's squad of triplets fourth with 622. Saskatchewan and Alberta found the green of the day was their steady play drew general admiration.

BLACK IN FORM

Black included five birdies in the amazing round. He scored a 64 on the 94 yard first hole, but lost a stroke to par on the second. On the third, however, he played his second 100 yards to within 12 inches of the pin and picked up another leg on the seventh where he sank his approach. After three-putting the ninth green, he took youngsters such a 25-foot putt on the tenth for a birdie two. He pitched close to the pin on the par-

DON'T TRY TO STEER THE BALL.
LINE OF PLAY

Alex Morrison says:

One of the worst mistakes a player can make is to try to steer the ball against the wind.

You never know how to hook or slice the ball whichever the shot you call for and there is little chance of your knowing just how hard the wind is blowing in the path of your shot.

Shots of this sort that do come off are almost always of luck.

Yet, nearly every player has made such a shot at one time or another.

He has also tried to keep an accurate check on the number of times the shot he planned failed to come off.

He has always to stand around and allow enough so that you don't.
